

## LEGENDARY COACHING WORKSHOPS:

# THE ART OF IMPACT

---

At Legendary Coaching we are firm believers that time management is a myth. What we mean is that you can't manufacture more time; we all have the same number of hours in a day. So we need to shift our focus to how we use the time available to us, and how we prioritize the tasks and goals that are most important. When efficiency and clarity come together, you get impact! That is the mix we bring together for our workshop, **The Art of Impact!**

For the sake of general understanding, we will call this a “**time management**” workshop. However it is so much more than that. This workshop will equip attendees with trusted tools and techniques to define their **work priorities** and maximize their **productivity**. Not only that, but we connect these practical skills to the deeper WHY? In other words, how these tools contribute to your greater vision for your life and your organization. After The Art of Impact, you can expect to walk away with greater decision making skills, work habits and time management skills.

**The Art of Impact** is a compact and interactive workshop that can be delivered in live or webinar form and also includes coaching diagnostics. In regards to learning outcomes, upon completion of this workshop, participants will be able to:

- Better prioritize their work tasks and use of time
- Understand their unique working style and how to maximize its effectiveness
- Learn trusted tools and techniques for improving their productivity
- Apply these skills in a larger context, such as leading a team
- And more!

We are confident this workshop will make a lasting difference for you; personally, and professionally. We are passionate about helping people reach the fullness of their potential and achieve their desired success. The Art of Impact can be a powerful tool on your way towards that success and we would love to be apart of the journey with you!

**Total Workshop Investment = Starting at \$499**
